STREAM Series			
STREAM1			
Music Streamer & Server			
Our entry-level streamer and server in compact half-width design.			
	Black	No Storage	€ 2 800
- User-accessible M2 SSD bay which can have a drive installed by dealer/end-user (pre-fitted drive Innuos available).		No Modular Output Board	
- Supports output modules to improve sound quality as Digital Transport or with Integrated DAC options.			
- Upgradeable with dedicated LPS1 and NET1 add-ons to form a three-piece stack.			
STREAM Remote Control			
Infrared remote with control of playback numbered shortcuts to presets (assignable via Sense app).	Silver	Optional Add-on for STREAM1	€ 150
- Anodised Aluminium Case. Requires 2 x AAA batteries (not included).			
	*STREAM Remote included as standard with STREAM3. Available to order as spare/replacement.		
LPS1		BUNDLE OPTION	
Linear Power Supply Upgrade			
Optional linear power supply upgrade for STREAM1 and NET1			
	Black	Ordered separately	€ 1 250
- Dual power outputs for simultaneous connection to both STREAM1 and NET1		Bundled with STREAM1	€ 1 000
Backwards compatible with ZENmini Mk3 and PULSEmini.			
NET1		BUNDLE OPTION	
Audiophile Network Switch			
Our entry-level audiophile switch designed to reduce network noise to any HiFi streamer.			
	Black	Ordered separately	€ 1 500
- Built upon the PhoenixNET platform with 4 x RJ45 ports.		Bundled with STREAM1	€ 1 200
- Upgradeable with LPS1 and perfectly matched with the STREAM1 to form a three-piece stack.		Save 20%	
STREAM3			
Music Streamer & Server			
A full-width enthusiast-level streamer that takes performance further than the STREAM1 through improved power supply and chassis.			
	Black	No Storage	€ 6 600
	Silver	No Modular Output Board	
- User-accessible M2 SSD bay which can have a drive installed by dealer/end-user (pre-fitted drive Innuos available).			
- Supports output modules to improve sound quality as Digital Transport or with Integrated DAC options including the high-performance PhoenixDAC.			
- STREAM Remote Control included as standard.			
NET3		BUNDLE OPTION	
Audiophile Network Switch			
An enthusiast-level audiophile network switch designed to greatly improve any music streamer, and an ideal partner to the STREAM3.			
	Black		€ 5 500
	Silver		
- Shares the chassis and power supply design of STREAM3, with its mainboard trickled down from the flagship NazaréNET using 4 x RJ45, 1 x SFP.			

Modular Options for STREAM Series

	STREAM1	STREAM3	<i>RRP</i> <i>(incl. VAT)</i>
Storage (M2 NVMe SSD)			
2TB	•	•	€ 800
4TB	•	•	€ 1 400
8TB		•	€ 2 500
Storage costs are subject to significant fluctuations, periodic price updates may be required. SSDs can be sourced from a third-party vendor, provided that the model follows our recommended specifications mentioned on the "What M.2 NVMe SSDs To Use?" FAQ published on our Knowledge Base.			
Output Boards			
Analogue Outputs			
Standard DAC Board 1 x RCA (Unbalanced), 1 x Coaxial, 1 x Optical (All with 24bit/192KHz maximum resolution)	•		€ 550
Performance DAC Board 1 x RCA (Unbalanced): Latest AKM Chip & High-Grade TCXO Clocks	•	•	€ 1 250
PhoenixDAC Board 1 x RCA (Unbalanced), 1 x XLR (Balanced): Dual-Mono AKM Chips, OCXO & FemtoClocks, Dedicated PSU		•	€ 3 500
Digital Outputs			
SPDIF Board 1 x AES, 1 x Coaxial, 1 x Optical (All with 24bit/192KHz maximum resolution)	•	•	€ 700
PhoenixUSB Board 3ppb 24MHz OCXO USB 2.0 Reclocker	•	•	€ 1 400
PhoenixI2S Board 3ppb 24MHz OCXO & 2 x FemtoClocks (HDMI)		•	€ 1 800
When ordering output board(s), please specify the model(s) where each board(s) will be installed.

ZEN Next-Gen Series			
ZEN Next-Gen			
Music Streamer & Server			
A high-end music server and streamer with premium NGaN power regulation and PreciseAudio mainboard.			
			
	Black	No Storage	€ 10 900
	Silver	No Modular Output Board	
- Two SSD bays for potential storage capacity of 16TB (one 'internal' bay accessible only via authorised Innuos service centres). - Supports output modules to optimise the preferred output connection type. - Upgradeable with FLOW Next-Gen and NET Next-Gen.			
Upgradeable to ZENith Next-Gen			
ZENith Next-Gen			
Music Streamer & Server			
A high-end music server and streamer that improves even further upon the ZEN Next-Gen with improved power rectification and processing technologies for breathtaking levels of performance.			
			
	Black	No Storage	
	Silver	No Modular Output Board	€ 17 300
- Two SSD bays for potential storage capacity of 16TB (one 'internal' bay accessible only via authorised Innuos service centres). - Supports output modules to optimise the preferred output connection type. - Upgradeable with Next-Gen FLOW and Next-Gen NET.			
Next-Gen NET			
Audiophile Network Switch			
A high-end network switch for high-performance network treatment to premium streamers.			
			
	Black		€ 10 900
	Silver		
- Features Next-Gen power architecture and chassis design, with technology trickled down from the flagship NazaréNET. - A reference-level switch to perfectly match ZEN Next-Gen, ZENith Next-Gen, and STATEMENT Streamers & Servers.			
Next-Gen FLOW			
Modular Reclocker & Converter			
A high-end digital audio Reclocker, with a modular design for Digital-Digital-Conversion.			
			
	Black		€ 10 900
	Silver		
- Connects to any USB source and improves sound quality as a dedicated, isolated audio output stage with master reclocking. - Reclocked USB output comes as standard, plus supports specialised modules to interface with proprietary DAC connection protocols including MSB, CH Precision, EMM Labs and more. - A reference-level Reclocker and output stage to perfectly match ZEN Next-Gen, ZENith Next-Gen, and STATEMENT Streamers & Servers.			

Modular Options for Next-Gen Series

NAZARÉ Series			
NAZARÉ			
Music Streamer & Server			
Our flagship ultra high-end streamer and server for ultimate performance. Redefines the potential of digital audio with state-of-the-art design and engineering for a new level of immersion and emotional engagement.  - Reflects the pinnacle of our 'Five Pillars' design philosophy to maximise on Power, Chassis, Processing, Output and Network. - Can function standalone but greatly enhanced by the partnering NazaréNET switch and the NazaréFLOW modular Reclocker.			
	Black		€ 44 000
	Silver		
NazaréNET			
Audiophile Network Switch			
Our flagship Audio Network Switch with NAZARÉ-level power supply architecture and chassis design paired with new WaveNET platform.  - An upgrade to any high-end music streamer, and a perfectly matched partner device to our flagship NAZARÉ streamer/server - Custom firmware for ultra-low noise and configurable via Sense app to manage port speeds (requires an Innuos streamer to be connected).			
	Black		€ 23 000
	Silver		
NazaréFLOW			
Modular Reclocker & Converter			
Our flagship Modular Reclocker & Converter, an ultra-high performing output stage with a modular design and NAZARÉ-level power supply and chassis design.  - A significant upgrade to any USB source but reaches its greatest potential when partnered with the flagship NAZARÉ server/streamer. - Able to use specialised boards to connect with proprietary interfaces such as ProSL by MSB, CH-Link by CH Precision and more.			
	Black		€ 23 000
	Silver

Digital Output Boards for NazaréFLOW
NazaréFLOW ProISL Module (MSB)

Interface module for ProISL connection to MSB DACs

NEW

€ 5 300

NazaréFLOW CH-Link Module (CH Precision)

Interface module for CH-Link connection to CH Precision DACs

NEW

€ 5 300

NazaréFLOW Optilink module (EMM Labs)

Interface module for Optilink connection to EMM Labs DACs

NEW

€ 5 300

NazaréFLOW I2S Module

3ppb 24MHz OCXO & 2 x FemtoClocks (HDMI)

NEW

€ 5 300

All NazaréFLOW modules receive SmartStack vibration treatment and shielded within an engineering-grade filament ESD shield.

When ordering output board(s), please specify the model(s) where each board(s) will be installed.
